

Software Architect

datango – a corporate division of PARIS GmbH - Berlin

datango is a corporate division of PARIS GmbH - Process Automation Robotics Information Systems – located in the heart of Berlin, and we are looking for an experienced **Software Architect**.

About Us

datango's performance suite (dps) – one of the market leading content authoring solutions for enterprises globally - was launched in 1999 and achieved tremendous growth and success until the acquisition by SAP, Germany's largest software company, in 2011. Since then, SAP has been marketing the software successfully under its own brand. In early 2016, PARIS acquired certain assets from datango AG including versions of the dps not sold to SAP. Building on proven technology and success combined with own new innovations, PARIS is now aiming for new growth paths across B2B and B2C.

Your Mission

As part of our R&D team you will be directly reporting to the VP Development.
Your mission: develop amazing architectures across never seen technologies for process performance, support and automation.
To accomplish your mission will lead our software architecture.

As our Software Architect, your **key responsibilities** will be:

- Design of architecture for several code bases
- Coding, best practices & lead by example
- Burn for new technologies

Your Profile // Education & Experience

- Degree in Computer Science/IT/Communication or equivalent
- At least 5 years of experience in Software Development

Your Profile // Skills

- Concepts: OO programming, Design Patterns, Clean Code
- Familiar in using Test-Frameworks for automatic Unit- and Integration tests
- Familiar in Continuous Integration, Jenkins
- Solution architect/EA experience with in-depth understanding of application architecture, IT Infra and Networks
- Experience in any of the following programming languages and concepts: C/C++/C#, Python, VB Script, Ruby, Java, JS, DHTML, .Net, Windows API, Microsoft Azure, Application Interfacing (UI Automation, MSAA, SAP, Green Screen, ...)
- Tools: Jira, Visual Studio, JEE
- Very good spoken and written English; German language skills are a plus

How to apply

Please send your CV incl. cover letter, salary expectation, and earliest possible start date to:
jobs@datango.com

Please put "Software Architect" into the subject line, and tell us how you heard about us and the open position.
