

(Junior) Software Developer

datango – a corporate division of PARIS GmbH - Berlin

datango is a corporate division of PARIS GmbH - Process Automation Robotics Information Systems – located in the heart of Berlin, and we are looking for a (Junior) **Software Developer**.

About Us

datango's performance suite (dps) – one of the market leading content authoring solutions for enterprises globally - was launched in 1999 and achieved tremendous growth and success until the acquisition by SAP, Germany's largest software company, in 2011. Since then, SAP has been marketing the software successfully under its own brand. In early 2016, PARIS acquired certain assets from datango AG including versions of the dps not sold to SAP. Building on proven technology and success combined with own new innovations, PARIS is now aiming for new growth paths across B2B and B2C.

Your Mission

As part of our R&D team you will be directly reporting to the VP Development.

Your mission: develop never seen technologies for process performance, support and automation.
